Delete Browsing History

- **Preserve Favorites website data**: Keep cookies and temporary Internet files that enable your favorite websites to retain preferences and display faster.
- **Temporary Internet files and website files**: Copies of webpages, images, and media that are saved for faster viewing.
- **Cookies and website data**: Files or databases stored on your computer by websites to save preferences or improve website performance.
- **History**: List of websites you have visited.
- **Download History**: List of files you have downloaded.
- **Form data**: Saved information that you have typed into forms.
- **Passwords**: Saved passwords that are automatically filled in when you sign in to a website you’ve previously visited.
- **Tracking Protection, ActiveX Filtering and Do Not Track**: A list of websites excluded from filtering, data used by Tracking Protection to detect where sites might automatically be sharing details about your visit, and exceptions to Do Not Track requests.

You also have the option to get rid of your browsing history using the Favorites Menu.

Click the star icon (⭐️) on the top-right > History tab. There, you can see websites you visited on specific dates (Today, Last Week, 3 Weeks Ago, etc.) Right-click to delete everything from a specific time period, or click to view and delete specific websites.

Safari

Click Clear History in the History menu. Then in the pop-up, pick the ‘all history’ timeframe.
